Mark Scheme

2007 examination – January series

Mark schemes are prepared by the Principal Examiner and considered, together with the relevant questions, by a panel of subject teachers. This mark scheme includes any amendments made at the standardisation meeting attended by all examiners and is the scheme which was used by them in this examination. The standardisation meeting ensures that the mark scheme covers the candidates' responses to questions and that every examiner understands and applies it in the same correct way. As preparation for the standardisation meeting each examiner analyses a number of candidates' scripts: alternative answers not already covered by the mark scheme are discussed at the meeting and legislated for. If, after this meeting, examiners encounter unusual answers which have not been discussed at the meeting they are required to refer these to the Principal Examiner.

It must be stressed that a mark scheme is a working document, in many cases further developed and expanded on the basis of candidates' reactions to a particular paper. Assumptions about future mark schemes on the basis of one year's document should be avoided; whilst the guiding principles of assessment remain constant, details will change, depending on the content of a particular examination paper.

Further copies of this Mark Scheme are available to download from the AQA Website: www.aqa.org.uk

January 2007**NA2P****DISTRIBUTION OF ASSESSMENT OBJECTIVES AND WEIGHTINGS**

The table below is a reminder of which Assessment Objectives will be tested by the questions and the marks available for them.

Unit 2

Assessment Objective	AO1	AO2i	AO3i
	25 x 2	25 x 2	25 x 2

Marking Procedure

1. Use the marking grid to establish which band the candidate's work falls into for each of the assessment objectives. Written comments should be in line with the marking grid boundary descriptors.
2. Assessment of each AO is equal. There will, however, be some overlapping of skills displayed across the different AOs.
3. Award 25 marks for each AO. Multiply each by 2 to arrive at a total mark out of 150. Ring mark out of 150 and transfer to front of script.

Note to examiners on question-specific mark schemes

Please note that the ideas and points given in each of the question-specific mark schemes are not exhaustive and are only printed to give an idea of some of the points you might see when marking scripts. Do not treat them as a checklist. Use them as a referral point with the opportunity to add to them as you continue to mark.
