

## Quantative Comparison Test 2

1.

28	116
----	-----

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

2.  $n$  is an even integer

The remainder when $n$ is divided by 3	The remainder when $n$ is divided by 5
--	--

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

3. The number of students in class A is 10 less than twice the number of students in class B. There are  $x$  students in class B.

The number of students in class A	$2x - 10$
-----------------------------------	-----------

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

4.  $x^2 - 12x + 35 = 0$

$x$	12
-----	----

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

5. The list price of a television set is  $t$  dollars

The price of the TV in a	$0.85t$ dollars
--------------------------	-----------------

sale offering a 15 percent discount	
-------------------------------------	--

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

6.  $\frac{7}{8} > x > \frac{5}{6}$

x	$\frac{6}{7}$
---	---------------

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

(Figure not to scale)

7. AB is parallel to ED

BCE and ACD are line segments

length of BC	Length of CA
--------------	--------------

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

8.  $10\text{mm} = 1\text{cm}$

The area of a square with sides of one centimeter	10 times the area of a square with sides of 1mm
---	---

- A. The quantity on the left is greater
- B. The quantity on the right is greater

- C. Both are equal
- D. The relationship cannot be determined without further information

(figure not to scale)

9. A is a point on the circle and BC is a chord but not a diameter of the circle

$x$	$90$
-----	------

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

10.  $x$  is positive

$x19$	$x20$
-------	-------

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

## Answer Key

1. A
2. D
3. C
4. B
5. C

6. D
7. D
8. A
9. D
10. D
