

Quantitative Comparison Test 6

1.

$-1 (-1)$	$-1 +(-1)$
-----------	------------

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

2.

75,410 rounded to the nearest hundred	75,410 rounded to the nearest thousand
---------------------------------------	--

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

3. ABCD is a rectangle

The length of the curved path from A to C	5
---	---

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

4.

Twice the volume of a cube of side 1	Volume of a cube of side 2
--------------------------------------	----------------------------

- A. The quantity on the left is greater
- B. The quantity on the right is greater

- C. Both are equal
- D. The relationship cannot be determined without further information

5. x , y and z are consecutive integers
and

$$xyz = 0$$

z	0
-----	-----

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

6.

The time it would take to drive 80 miles at an average speed of 60 miles per hour	The time it would take to drive 60 miles at an average speed of 45 mile an hour
--	--

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

7. $\frac{1}{3}$ $\frac{4}{5}$ $\frac{6}{7}$ $\frac{2}{9}$ $\frac{3}{11}$

The smallest fraction shown	The product of the greatest fraction shown and $\frac{2}{3}$
--------------------------------	--

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

8. 45 per cent of $n = 60$

90 per cent of n	120
--------------------	-----

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

9.

The number of integers between 50 and 100 which are multiples of 3	The number of integers between 10 and 81 which are multiples of 4
--	---

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

10. Note figure not to scale

Twice area of triangle ABC	Area of triangle DBC
----------------------------	----------------------

- A. The quantity on the left is greater
- B. The quantity on the right is greater
- C. Both are equal
- D. The relationship cannot be determined without further information

Answer Key

1. A
2. A
3. A
4. B
5. D
6. C
7. B
8. C
9. B
10. D
